

Dynaco PAS3 Preamp – tone upgrade kit

The Dynaco PAS2 and PAS3 are identical electronically and differ only by the front panel and knobs.

The Dynaco PAS3-X is also identical but uses a special type of control, these parts can be substituted with no problems

2 – 250K TREBLE controls – these replace the originals

2 – 500K BASS controls – these replace the originals

2 – 0.002 capacitors (222K) – these replace the originals

2 – 0.02 capacitors (223K) – these replace the originals

2 – 1.0uF capacitors (105K) – these replace the originals *

* these were not used in the PAS2 but can be added between the CW lug of the bass control and eyelet # 5 on left channel and eyelet # 12 on right channel

Replace each part and wire identical to the way it was.
